Instead Of Editorials

A Column of Personal Opinion By ANDREW ECKDAHL Editor, Summer Kernel

Those who are supposed to be in the know on such things as international situations pounded away during the hopeful months preceding the present war, saying that should the United States ever get into another war we would become a Fascist nation.

That seems logical to me, as it must seem logical to anyone who has read the history of World War I. We snapped back to democracy then; but could we do It again? I fear

War for the United States would bring Fascism; It would be necessary for the most successful prosecution of the war.
